**PROPER BEER**

## **GOOD ORDINARY PALE ALE**

3.8% ABV – An English style bitter giving away my Midlands brewing roots. A gold coloured, good honest full-bodied beer.

"Highly recommended craft ales" - **THE LIST (EATING & DRINKING GUIDE)**

## **RED RYE**

4.5% ABV – Three types of rye malt & melanoidinmalz. Copper coloured, with a clean, crisp & fruity taste.

"Works really well, fruity flavours balanced by a malty bitterness and spicy hops" - **THE HERALD**

## **VOLCANO IPA**

5% ABV – A kick-ass beer named after a kick-ass descarga tune. Light coloured, American style pale ale, erupting with hops.

"The quality is great" - **TOM KITCHIN, SCOTLAND ON SUNDAY**

## **EXTRA PALE**

4% ABV - Lager malt, lager hops, ale fermentation. Light & refreshing like a blond beer. It's just I don't like the description 'blond'. Sounds a bit 1980s.

"Top 5 craft beer from Scotland" - **THE LIST MAGAZINE HOT 100 2013**
